

reported to the attaching agency in the non-automated system. Again, the bill was read in view of a computerized record system. This is to make it also comply with some manually operated systems. As I have indicated, these are technical amendments that were prepared by the Security and Privacy Sub-Committee of the Criminal Justice Information System Advisory Committee of Lancaster County in Lincoln. They were shown to Senator Murphy and to the now infamous lobbyists of the bill at the lunch meeting. At that time they said they were acceptable. Since I've insulted their sandwiches, I'm not sure they still are. I would hope though these technical amendments could be adopted.

SENATOR SAVAGE: The Chair recognizes Senator Murphy.

SENATOR MURPHY: As Senator Fowler has indicated, at the free trial meeting that was held and those were very enjoyable sandwiches, Senator Fowler. I think I lost a pound that day, but anyhow, we did concur. These were offered by Kandra Hahn and there is no reason not to include them. They do help clarify the intent of the bill and I would recommend that the body accept these amendments.

SENATOR SAVAGE: The Chair recognizes Senator Chambers. Senator Chambers passed. All right, there are no further lights on. The question is... Senator Fowler do you wish...? Bill Hasebroock and I have a little private joke about that. Have you all voted? The question is the adoption of the Fowler amendment to LB 713. Please vote. The Senators will return to their seats and expedite the due... Savage voting aye and record.

CLERK: Senator Savage voting aye. 25 ayes, 1 nay on the adoption of the Fowler amendment, Mr. President.

SENATOR SAVAGE: The Fowler amendment is adopted. What's next?

CLERK: Mr. President, the next motion is offered by Senator Fowler. This one is on page 1694 of the Legislative Journal.

SENATOR SAVAGE: Senator Fowler.

SENATOR FOWLER: This amendment, it's the one on 1694, is that correct?

CLERK: Yes, sir.

SENATOR FOWLER: This amendment deals with the question of sealing of records. That is, under what case, at what time information would not be accessible to the general public. This is similar in concept to a bill that we passed this morning with regards to drunk driving except the one that we passed this morning went much further than I ever thought I could possible get this Legislature to accept with records with regards to criminal activity. However, I guess drunk driving does seem a precedent has been set here. What we passed this morning is that if after five years, you're not
